

Mobile Screening Unit

Fundraising restarts with a meal

Lions in District 22W are ready for a new Mobile Screening Unit (MSU). Everyone has been ready for a while but Covid-19 has significantly slowed fundraising and increased the cost, keeping the MSU approximately \$20,000 from its goal.

Lion Barbara Myers from the Fusion Lions Club is working within the Roy Rogers restaurant organization to create a big, big, big fundraiser for the MSU. This involves 12 restaurants* in Allegany, Carol, Frederick, and Washington counties donating 25% percent of the net proceeds during the event - all on Wednesday, December 8 - all between 5 and 8 p.m. This is a District effort and we are calling on **every Club** to lend a hand. The commitment will be for one (1) hour of set up and clean up plus three (3) hours in the restaurants talking up the project to customers who only have to mention the Lions when they pay for their meal. If possible, each store should have 3 or 4 Lions stationed either in the store or at the drive-thru line to explain what we are doing.

The pre-event commitment is to talk up the project as much as possible, submitting fliers to any newsletter or website available (church, school, grocery store, social group, Facebook) to generate restaurant patronage. Publicity, newsletters, fliers must be mobilized in aid of the MSU for it to be successful.

Clubs and other volunteers should email Lois Conrad at lconrad@matrix-logic.com or call 301-793-0530 to signup to help at one of the listed (below*) Roy Rogers stores. It is important that we know ahead of time who will be at which store so that we are sure that every store will adequately manned (or Lioned).

LIONS, this is important. Club secretaries, please get this information out to your club members ASAP. Most clubs will not be having a meeting between now and December 8 so it is important that there be communication with your members so they can promote this event and help on December 8.
