

# **DISTRICT 22-W MOBILE SCREENING UNIT (MSU)**

Photo of a similar unit currently in use in Virginia

## **OUR FUND RAISING GOAL IS IN SIGHT DONATE NOW TO INSURE 2022 DELIVERY**

**We understand that Covid has had an impact on your fundraising projects but District 22-W is only around \$20,000 short of having the funds needed to order this unit for the benefit of all of the clubs in the district.**

**~ HOWEVER ~**

An anonymous Lion in the district has offered to match funds donated to the MSU fund up to \$10,000.00. That means that if we can raise \$10,000 by the end of December we will be able to process our LCIF grant request and place the order for the MSU.

### ***What is the Mobile Screening Unit?***

The District 22-W Mobile Screening Unit (MSU) will be a fully self-contained Class "C" bus body equipped to provide five stations for conducting a number of health screening activities. It will be equipped with the latest digital technology to allow the Lions of District 22-W to bring health screening programs to the residents of Western Maryland at locations such as schools, churches and public gatherings (fairs, carnivals, etc.) When we detect a potential health issue we will refer the individual to seek professional help to further confirm and address the issue identified.

For more information, or to schedule a presentation about the MSU for your club, contact Lion Bob Johnson (rcyrilj@aol.com)
